Summary

I just finished the university year, and am looking for a job with manual labour, as I have experience in such roles. I'm capable and motivated, and work well in teams.

Skills

I am a diligent worker with a strong work ethic, I will always show up on time, and will keep working until the task is complete. I'm physically fit, can lift 25 - 30kg repeatedly as long as needed, and am good at following instructions. I don't have much experience with pick packing, but I'm a quick learner, and I work well in teams. However, I have experience in several manual labor jobs and found them highly enjoyable, so I would be strongly motivated should I get the role
